Spring 2023 NJGPA results will not be compared to

Spring 2022 NJGPA results because Spring 2022 NJGPA was a field test.

- Statute requires the State graduation proficiency assessment to be **administered to all grade 11 students**. (N.J.S.A. 18A:7C-6)

- NJGPA is designed to measure the extent to which students are graduation ready in English Language Arts (ELA) and Mathematics.

- Graduation readiness is reported separately for each content component.

- The ELA component is aligned to the grade 10 NJSLS-ELA standards.

- The Mathematics component is aligned to NJSLS- Mathematics Algebra I and Geometry standards.

- On May 3, 2023, the New Jersey State Board of Education adopted the proficiency level cut score for the English language Arts (ELA) and Mathematics components of the NJGPA, as well as the menu of alternative assessments and aligned cut scores.

- Students who take but do not meet the minimum required score on each component of the assessment will have the opportunity to receive additional supports and may take the following steps:

  - Retake the ELA and/or Mathematics components of the New Jersey Graduation Proficiency Assessment in the following summer or fall;

  - Meet a designated cut score from the menu of substitute competency tests; or

  - Complete a portfolio appeal.

Intervention Strategies

English Language Arts

- We will use NJGPA data to isolate specific standards and identify where we need to focus instruction, predominantly informational text.

- The literacy coaches, technology coach and colleague teachers will meet with PLC groups and individual teachers to provide strategies for instruction in this area.

Mathematics

- Targeted professional development presented by Great Minds for teachers and administrators

- Targeted interventions provided to students, based on data from both local and state assessments:

    - Algebra Seminar
